Instructions

Clients who have opened an account can activate or receive rewards (specific activation conditions are subject to the rules of the activity page). When the reward status becomes "Processing", the free share will be delivered to your account within 10 working days.

Clients who have not yet opened an account need to open a Tiger Prime Account and activate or receive rewards (the specific activation conditions are subject to the rules of the activity page). After the reward status becomes "Processing", the stocks will be delivered to your account within 10 working days.

Stock/fund rewards will be issued to the user's account holdings in the form of a specified number of shares. If the client receives fractional share rewards based on face value, the system will convert yesterday's closing price at the time of stock distribution into the number of stocks and distribute them to the client's account holdings. If the client receives fund rewards based on amount, Tiger Brokers will determine the number of shares awarded based on the latest NAV when issuing the funds (which may be yesterday's closing price or the closing price of two days ago), subjected to Tiger Brokers' discretion.

If the user obtains a reward that needs to meet the activation conditions, the specified conditions need to be met within the validity period, otherwise the reward will become invalid.

Notes:

- Please note during the holding period of stocks, the corporate action of the stock may cause charges. Tiger Brokers will charge accordingly.
- There could be a withholding period for some stocks or funds rewards issued. Please refer to the campaign's Terms & Conditions.

Please note during the holding period of stocks, the corporate action of the stock may cause charges. Tiger Brokers will charge accordingly. Please pay attention to the security of your account total asset.

Note: By participating in events and receiving the rewards in your account, you agree that you will only withdraw the proceeds generated from the rewards after you have successfully completed 10 trades (since your account opening).

Instruction

Cash Vouchers issued by Tiger can be used to offset the amount of an order. Cash vouchers will take effect immediately after activation. You need to use cash vouchers within the validity period.

Cash Vouchers are pre-deducted and rebated afterwards. You need to place an order within the validity period of the voucher and the order should be filled before the voucher can be successfully used. For ordinary orders, you can select a cash voucher on the order page of the Tiger Trade App version 7.2.0 and above (cash vouchers in the older versions will be automatically used based on the system sorting). For fund orders, you can only select a cash voucher on the order page of Tiger Trade App version 8.0.7 and above (cash vouchers will not be available for fund orders in the old version). If your order has matching vouchers, the system will automatically select the best voucher for you when placing the order. If you want to cancel or change the voucher, you can cancel or change it manually when placing the order.

For vouchers dedicated to Auto-invest Plan or Regular Saving Plan, clients may select one or more vouchers when creating a investment plan in Tiger Trade App version 9.0.7 and above. When the orders are automatically completed, the system will automatically

use an optimal voucher for each order. If the client modifies the plan, he or she can reselect vouchers when modifying the plan. When the plan is cancelled, all vouchers linked to the plan will be released, and the remaining unused vouchers can be selected to other plans.

After the order is filled, the selected voucher will be used automatically. For ordinary orders, the order needs to be fully filled before the voucher can be used. But for auto investment orders, vouchers can be used even though the order is partially filled. If the order is cancelled before filled, this cash voucher will not be used.

After the order is filled and the voucher is used, the rebate amount will be credited to the clients' Tiger account within 1 minute of the order being placed. If the order amount is greater than or equal to the voucher value, the rebate amount will be equal to the voucher value; if the order amount is less than the voucher value, the rebate amount will be equal to the order amount. After the rebate, clients may check the rebate details through the coupon details in Reward Center or via [Tiger Trade App>Portfolio>Orders] or [Tiger Trade App>Portfolio>More>Fund Details].

Tiger offers cash vouchers in different currencies on face value for trading in a variety of markets. The rebate currency of the vouchers will be consistent with the trading currency. If the face value of the voucher is different from the trading currency, the system will convert the rebate based on the real-time exchange rate. If the currency on face value is the same as the currency of the trade, no conversion is required.

You need to Place a One-Click Order on Tiger Trade App version 8.1.3 and above to use the voucher (vouchers are not available for One-Click Order of old versions) ; Clients can use vouchers on PC One-Click Order for any version. Besides, neither App nor PC One-Click Order supports the selection of vouchers when placing an order, and the system will automatically use the voucher with the largest face value within the validity period.

Notes: The cash voucher is not available for exercised option orders.

If the user obtains a reward that needs to meet the activation conditions, the specified conditions need to be met within the validity period, otherwise the reward will become invalid.

Commission-free Trades Card

The commission-free trade issued by Tiger can be used to waive the commission/platform fee/transaction fee on Tiger trades. The commission-free trade will take effect immediately after activation. You need to use commission-free trade within the validity period. If you have two or more commission-free trades of the same category, the validity period will be automatically extended.

Note: If it is a Commission-free Trading Card with a limited frequency of use, the validity period can not be extended. The validity period of a Commission-free Trading Card with a limited frequency is from time when the coupon is activated to the end of valid days.

The commission-free trades are pre-deducted and rebated afterwards. You need to place an order within the validity period of the commission-free trade and the order should be filled before the commission-free trade can be successfully used. The commission-free trade(s) can be chosen when an order is placed in the Tiger Trade App of version 7.2.0 and above (commission-free trades in the older versions will be automatically used based on the system sorting). If your order has matching commission-free trades, the system will automatically select the best commission-free trade for you when placing the order. If you want to cancel or change the commission-free trade, you can cancel or change it manually when placing the order.

(Notes: Orders bound with the commission-free trade need to be fully filled before the commission-free trade can be successfully used. If the order is fully filled after the commission-free trade expires, the commission-free trade will not be used successfully.)

After the order is filled, the number of times for commission-free trades minus 1. The waived commission will be refunded to the client's Tiger account in the form of cash within 1 minute of the order being filled for the Prime Account and by the first week of

the next month for the Global Account. Clients may check the commission refund details through the coupon details in Reward Center or via [Tiger Trade>Portfolio>Orders] or [Tiger Trade App>Portfolio>More>Fund Details].

Both the Single Commission-Free Trade and the Multi-Commission-Free Trades can only be used for a specified number of times within the validity period, and any unused times after the expiry date of the commission-free trade will be automatically cancelled. After commission-free trade is bound to an order, the number of times for commission-free trade will be frozen. If the order is fully filled, the number of times will be deducted accordingly; if the order is not fully filled or cancelled, the number of times will be returned accordingly.

You need to Place a One-Click Order on Tiger Trade App version 8.1.3 and above to use the voucher (vouchers are not available for One-Click Order of old versions); Clients can use vouchers on PC One-Click Order for any version. Besides, neither App nor PC One-Click Order supports the selection of vouchers when placing an order, and the system will automatically use the voucher with the earliest expiration within the validity period.

If the user obtains a reward that needs to meet the activation conditions, the specified conditions need to be met within the validity period, otherwise the reward will become invalid.

Notes: Commission-free trade is not available for exercised option orders.
